The Story of Matter Surfaces

The Company

Matter Surfaces curates premium design solutions for architects and interior designers. Our team draws on decades of practice as interior designers, healthy building ambassadors and construction professionals to find the ideal solution for your space.

Wellness

True wellness is holistic – encompassing person and planet. Material decisions for interior spaces often dictate caring for both. Entrance systems are your first line of defense when creating spaces that enhance wellness. Once inside, design flooring choices throughout a space have a substantial impact on both human and planet health. These topics are complex, and solutions often offer contradictions, but we’re committed to helping you make the right choices.

Design

Design, in all its forms, is one of the primary engines for change in our society. Wellness cannot be achieved without the right design choices. Good Design moves and motivates change through discourse, beauty, and manifestation.

Service

We take service seriously. Service starts with transparent information and context. Some people passively push information, while some aggressively edit to fit a narrative. We parse and curate in partnership with our clients so they can confidently make decisions for their projects. And when decisions are made, we make sure we deliver. Global logistics is one of our specialties, and we have warehouses throughout the country to process and ship materials as fast as the world allows. (Sometimes faster!)

Showrooms: NYC and LA
Inventory: GA

Our Partners

Bolon (est. 1949) - A women-owned and third generation family-operated Swedish design company and the creator of woven vinyl flooring, Bolon products are trend-setting with distinct focus on innovation, quality and sustainability. The designs deliver the beauty of a woven textile with the benefits of resilient flooring– long life cycles and ease of installation and maintenance. Bolon’s portfolio encompasses an infinite range of design possibilities, suitable for all commercial applications, including indoor and controlled outdoor flooring, wallcoverings and area rugs.

PURLINE (est. 1948) - PURLINE is brand of international owner-operated family business Windmoller. Now in its third generation, Windmoller stands for innovative and high-quality floor coverings- including the first-of-its-kind PURLINE collection. The bio-polyurethane based products offer unmatched sustainability credentials, unparalleled durability, and superior performance. The PURLINE commercial flooring portfolio includes sheet goods, large-scale tile formats and a range of plank layouts to create limitless design combinations.

Parador (est. 1977)- With living performance at the core of the brand, Parador is committed to providing sustainable products while bringing environmental standards, social affairs and responsible business practices into balance. Parador is the creator of the world’s first solid plank with click connection and inventor of the design flooring Parador Modular ONE, setting a new standard in the innovation of flooring design with a focus on human health and environmental stewardship. Modular ONE is available in wide planks and oversized tiles suitable for multi-family, hospitality and commercial applications.

Parador Modular ONE; Studio Grey

Parador Modular ONE Product Overview

Authentic in form and feel as its natural counterparts, Parador Modular ONE is super natural flooring, offering acoustic benefits from cork backing and superior durability utilizing patented surface technology and rapidly renewable resources to withstand the demands of hospitality applications while providing an authentic wood feel.

Product Structure

Modular ONE, pioneering quality – contributing toward healthy interiors, and plasticizer-free, in an absolutely authentic look and feel, with a resilient surface and integrated cork backing for quiet living comfort and a particularly pleasant walking sensation as well as being suitable for wet rooms.

1. Patented surface technology

Abrasion-resistant & easy to maintain polypropylene top layer with embossing

2. Dimensionally stable core board

Natural & recycled raw materials with wax-resin binder for water resistant floor

3. Integrated cork sound insulation

Improved room acoustics, comfort & warmth

4. Safe-Lock® PRO, patented click connector

Easy-to-install flooring that is kind on the joints & supports low-noise room acoustics

Super Natural Flooring

Authentic in form and feel as its natural counterpart, Modular ONE sets a new standard for innovation in flooring design with human health and environmental stewardship at its core. Designed for superior durability with patented surface technology and rapidly renewable resources, Modular ONE breaks new ecological design boundaries that are super natural.

Parador Modular ONE; Oak Urban White Limed

Parador Modular ONE Product Highlights

Water Resistant

Modular ONE's waterproof surface and specially adapted core board makes it suitable for use in wet rooms with up to twenty-four hour standing water protection. Special edge processing also protects the floor from water ingress.

Low Maintenance

Everyday cleaning can be done with a vacuum cleaner or broom. Dirty marks are wiped off with a damp cloth and a standard floor or universal cleaner is suitable. There is no need for harsh chemicals, floor wax or polishes.

Durability

Modular ONE products carry a wear classification of 33 - suitable for heavy commercial traffic. Modular ONE offers a 10 year commercial warranty on its material when installed and maintained according to Parador guidelines.

Comfort

Modular ONE is suitable for underfloor heating and is particularly warm underfoot versus LVT thanks to its resilient surface and cork back. Modular ONE offers integrated footfall sound insulation to create optimal room acoustics.

Sustainability

Production, materials and products from Parador go beyond statutory requirements. Utilizing responsibly sourced and certified raw materials Modular ONE can contribute towards green building schemes including LEED v4, WELL, BREEAM and CHPS.

Quality Assurance

Modular ONE only uses predominantly natural, certified raw materials for the ecological production of this healthy living product and avoids the use of plasticizers. Modular ONE "Made in Germany" meets the highest standards of sustainable living.

Healthy Interiors

Modular ONE carries a FloorScore certification to support healthy indoor air quality. Each Modular ONE design collection contributes to biophilic design and natural pattern incorporation by closely mimicking naturally occurring materials.

Reflectivity

The matte finish of Modular ONE eliminates reflections on flooring under light sources. Bright reflections on high-gloss surfaces create the look of "wet floors" causing slips and falls among the elderly and those with dementia.

Bolon Weavery; Top Layer, Weave

Bolon Product Overview

Durable, safe and easy to care for. Bolon woven vinyl flooring is a proven hygienic alternative to carpet and can be used in diverse multi-family environments with complete confidence.

Product Structure

Bolon material is comprised of four layers, fused together through a heating process.

1. Top Layer, Weave

A set of vinyl threads (warp and weft) that are woven together and characterized as profiled, elliptical or folded.

2. Upper Layer, Backing

Fire-protective backing (Bfl-s1 Classification).

3. Middle Layer, Backing

Glass fiber layer for dimension and stability.

4. Bottom Layer, Backing

Adjustable for rolls, tiles or acoustic needs. This layer is comprised of up to 33% recycled content.

100% Made in Sweden | 100% Quality

All design, production and distribution activities are based at the factory in Ulricehamn – Bolon even produces their own raw materials there. This strategy of centralization ensures expertise across the entire value chain, while encouraging flexibility and innovation. The designs deliver the beauty of a woven textile with all the benefits of resilient flooring – long life cycles and ease of installation and maintenance. As an international design brand, boasting collaborations with world-renowned architects and designers, Bolon always stays a step ahead.

Bolon Studio™ Shape Triangle; Artisan Slate, Artisan Ivory, Botanic Cilia

Bolon Product Highlights

The performance behind the aesthetic.

Waterproof

The backing fused to Bolon materials is impervious to liquid, resulting in a waterproof and rot-proof product.

Non-Slip

The woven structure of Bolon flooring is naturally non-slip, making it appropriate for public areas exposed to heavy foot traffic.

Indoor / Outdoor

Bolon material is suitable for both indoor and controlled outdoor use, maintaining its color and structure when exposed to natural weather elements.

Quality Assurance

Every one of Bolon’s collections are developed, designed and manufactured in Sweden, without any exceptions. This allows Bolon to control every product put to market, with a focus on quality and detail.

Sustainability

Bolon owns and operates an onsite recycling plant, implements geothermal cooling practices and produces all material free of phthalates. The material itself is 100% fully recyclable with environmental certifications including GreenTag, BREEAM, EPD, and Floorscore, which can contribute to higher LEED ratings and WELL certification.

Hypoallergenic

Bolon material is hypoallergenic with very low VOC emissions, so it contributes positively to indoor air quality.

Comfort

Bolon flooring provides comfort underfoot and has antistatic properties to protect against unpleasant shocks.

Thermal Insulation

Bolon flooring offers warmth for greater energy savings.

Wellness

Bolon materials are FloorScore certified to support healthy indoor air quality. Many Bolon flooring collections also contribute to biophilic design and natural pattern incorporation strategies.

Reflectivity

The matte or satin finishes of Bolon materials eliminate bright reflections on flooring under light sources. Bright reflections on high-gloss surfaces create the look of “wet floors” causing slips and falls among the elderly and those with dementia.

PURLINE Product Overview

Made from rapidly renewable raw materials, PURLINE bio-polyurethane based flooring combines unparalleled sustainability with durability and ease of maintenance for a wide range of multi-family settings.

Product Structure

PURLINE material is comprised of five layers created from natural raw ingredients: chalk, canola oil and castor oil.

1. Top layer, Clear Polyurethane Performance Layer

A clear PU top layer creates a hygienic, non-porous surface.

2. Middle layer, Décor Paper Print Design

FSC-certified décor paper layer is printed with water-based inks and gives the product its authentic wood and stone patterns, bold colorways and warm neutrals.

3. Middle layer, Glass Fiber Reinforcement

Glass fiber reinforcement provides dimensional stability.

4. Middle layer, Solid Bio-Polyurethane Base Layer

A PU base layer for increased durability.

5. Bottom layer, FleeceTEC® Backing System

Integrated FleeceTEC® System bottom layer for easy installation and comfort underfoot.

Designed by Nature. Refined by Science..

Production and distribution efforts are based in East Westphalia- built upon decades of uncompromising German engineering and manufacturing processes. The spirit of development rooted in scientific discovery that led to the creation of PURLINE is still very much alive. Influenced by growing global building guidance, the design of the PURLINE collection continues to evolve to bring to market the most durable and healthful designer flooring solution.

PURLINE, Royal Chestnut Grey

PURLINE Product Highlights

Healthy

PURLINE is made of three natural and rapidly renewable ingredients, chalk, castor oil and canola oil, making it one of the most environmentally-friendly flooring products available on the market.

Sustainable

PURLINE material offers incomparable sustainability certifications, including: Cradle to Cradle Silver, GreenGuard Gold, FloorScore, Declare, EPD and HPD.

Non-staining

PURLINE exceeds ASTM F925 standards and will not stain, even when cleaned with Bleach, Alcohol or Ammonium Hydroxide, unlike carpet or fibered products.

Hygienic

The clear PU top layer creates a hardwearing, non-porous surface that can easily be cleaned with conventional processes and chemicals. PURLINE can also be disinfected with the harshest cleaning agents. Scientifically formulated Canola and Castor oil are polymerized to create bio-polyurethane, a resilient compound, that when bound with chalk, formulates PURLINE's innovative core.

Authentic designs

The décor paper layer delivers realistic patterns and simulated textures to PURLINE's wood planks and stone tiles.

Wellness

PURLINE is FloorScore certified and contributes positively to indoor air quality. PURLINE flooring can contribute to health and wellness goals, including WELL certification.

Reflectivity

The matte finish of PURLINE materials eliminates bright reflections on flooring under light sources. Bright reflections on high-gloss surfaces create the look of “wet floors” causing slips and falls among the elderly and those with dementia.

Arrival Collection Product Overview

An entryway is the first stop for all visitors and occupants entering a building, and first impressions matter. The Arrival Collection from Matter Surfaces offers a variety of high-performance entrance and matting solutions that do not sacrifice aesthetics.

Every building has an entrance- let your guests know they’ve arrived.

Wellness

An effective entrance and matting system helps to improve indoor air quality and can help contribute to health and wellness goals like LEED and WELL.

Green Certifications:

- Green Label Plus
- Environmental Product Declarations (EPDs)

Safety

Floors are the leading cause of injury according to the National Safety Council (NSC). From lawsuits to missed work days, slips, trips and falls can be costly to organizations.

The Arrival Collection includes foot grilles and matting products that scrape and trap dirt, debris and moisture to help prevent liabilities.

Design, Templating, and Installation

Custom installs, shapes and logo matting are our specialty.

Simple Maintenance

A proper entrance system traps dirt and moisture to prevent damage to interior flooring surfaces and lowers maintenance requirements, saving time and money.

Many Arrival products only require vacuuming to maintain their beauty and effectiveness.

Durability

All Arrival Collection entrance and matting products are commercially rated.

Rated for:

- Extreme traffic (1M+ guests per year)
- Heavy rolling loads
- Indoor and outdoor applications

Multi-Family Flooring Solutions

Functional by nature, versatile by design.

Low Maintenance

Multi-family environments with simple to maintain surfaces ensure living areas and common spaces are easy to upkeep. Integrating an entry system of scraping and drying products- like the foot grilles and matting in our Arrival Collection- helps to remove and trap dirt, moisture, and particulates before residents and guests enter the common and living areas, lowering interior maintenance time and costs. PURLINE and Parador Modular ONE products offer non-porous top surfaces that do not require waxing, buffing and stripping to maintain beauty. Bolon products feature a compact yarn and weaving structure with no exposed fibers, resulting in fewer places for dirt and debris to hide and easy cleaning requirements.

Durability

Multi-family flooring must be hard wearing enough to withstand years of everyday wear and tear from tenants. Parador Modular ONE carries a wear classification of 33- suitable for heavy commercial traffic, provides up to twenty-four hour standing water protection, and offers a 10-year warranty when installed and maintained according to Parador guidelines. Bolon is both durable and resilient, suitable for heavy commercial traffic, and offers a 10-to-15-year warranty on its material when maintained according to Bolon Care+ guidelines. PURLINE is produced to be 5 times more durable than luxury vinyl tile, withstands heavy loads including furniture, cabinetry and equipment, and offers a 15-year warranty when installed and maintained in accordance with guidelines.

Design Versatility

Parador Modular ONE includes over 30 wide planks and oversized tiles mimicking the designs of natural materials, characterized by warmth, realistic texturing, and bold, iconic patterns. The Bolon product portfolio includes over 80 styles, available in a variety of textures, colors, patterns and formats, including rolls, tiles and Studio™ Shapes. In addition to the aesthetic options offered in the standard product line, Bolon offers designer collections and bespoke programs, designed to meet specific project and application demands. The PURLINE collection consists of over 90 colors and patterns across three product formats- rolls, planks and tiles. PURLINE's product lines feature bold colors, contemporary neutrals, authentic hardwood and natural stone looks for hard-wearing designer surfaces in any setting.

Our portfolio includes projects in the following multi-family areas, among others:

- Entrances
- Living Areas
- Corridors
- Common Spaces
- Fitness Centers
- Outdoor Spaces
- Area Rugs

Parador Modular ONE; Oak Linea Natural

Entrances

Arrival Collection; Left: Ultra Track | Right: Dri Track

Living Areas

Parador Modular ONE; Oak Pure Natural

Living Areas

Parador Modular ONE; Pine Rustic Grey

Living areas need to be functional and hard wearing without compromising the warmth and comfort of home. Matter Surfaces flooring solutions provide the perfect blend of function and form, ensuring that the design does not need to sacrifice one for the other. Our brands offer underfoot comfort, the design versatility traditionally only found in carpet and the durability of resilient floorcoverings.

Acoustics

Sound can have adverse effects on the human body such as sleeping disorders, stress and headaches. Proper acoustic planning in multi-family environments is crucial to ensuring resident comfort. Parador Modular ONE includes an integrated cork backing for improved sound insulation, offering an IIC rating of 58. Bolon offers flooring with acoustic felt backing, with a 21-22 dB Impact Sound Insulation level and a 60+ Impact Isolation Class (IIC) rating.

Hygiene and Maintenance

Carpet harbors allergens such as dust mites, mold and dander. PURLINE bio-polyurethane based flooring and Parador Modular ONE feature non-porous top surfaces that will not trap dirt, dander or moisture. Bolon woven vinyl flooring is impervious to liquid with an easy to clean compact woven structure and no exposed fibers. Bolon material is hypoallergenic making it asthma and allergy-friendly and offers antimicrobial properties to fight bacteria and ensure optimal sanitary conditions. Matter Surfaces materials last under regular cleaning and disinfection routines.

Fitness Areas

Bolon Botanic; Cilia | PURLINE; Royal Chestnut Mocca

Bolon is approved for use with rubber-coated dumbbells up to 50 lb.

Bolon and PURLINE are not recommended for use in fitness areas where heavy weights will be impacting the floor frequently.

A Quiet Cushion underlayment, for additional shock and sound absorption, is recommended for all fitness area applications. Bolon and PURLINE can be installed over Quiet Cushion, and due to matching thicknesses, abutted without the need for transitions or seaming. Quiet Cushion is suitable with Bolon under various types of fitness equipment, including treadmills, elliptical machines, weight machines and light dumbbell use.

QUIET CUSHION 4MM size (roll):

6'-7" x 34'-5"

6'-7" x 68'-10"

Product Description: PVC underlayment for sound absorption and additional cushion. Sold in half roll or full roll sizes.

Area Rugs

Bolon Float - Bespoke Border; Now Champagne, Now Silver

Bolon Float - our bespoke area rug program - offers hospitality designers the freedom to specify flooring that is unique to each project, without the burden of complicated installation requirements.

In addition, our state-of-the-art cutting machines offer the flexibility to create U-shaped area rugs to fit seamlessly around platform and other guest room beds without the requirement of labor or disruptive renovation time.

Bolon area rugs rest effortlessly and on a variety of surfaces. In other words, Bolon flooring floats.

The program consists of five categories:

- Bespoke
- Bespoke Border
- Studio™ Straight Edge
- Studio™ Raw Edge
- Custom

Important Information:

- Largest recommended size: 18' x 30'
- Bespoke and Bespoke Border area rugs are fabricated with a self-bound edge.
- Studio™ Straight Edge and Studio™ Raw Edge area rugs are fabricated with an underlayment, 1.4mm thick.
- An underlayment of 4mm thickness is available for additional cushion and comfort underfoot.
- Anti-slip backing is available for smaller area rugs.
- Round and oval-shaped area rugs are considered custom products, requiring a detailed seaming process.

Setting standards. Taking responsibility.

Parador Modular ONE Sustainability

Parador is setting new standards in sustainable flooring, focusing on the lifecycle impact of their products from manufacturing to end of life. At its core, Parador embodies their mantra: act sustainably, take responsibility for the future and commit to bringing the environment, social issues and responsible business practices into perfect balance.

- ✓ **Tested raw materials:**
Parador Modular ONE is manufactured with high-quality, recyclable and environmentally friendly materials from monitored sources. The wood used to engineer Modular ONE planks comes from timber in sustainably managed forests.
- ✓ **Reuse after long life cycle**
Once installed, Parador Modular ONE is characterized by a long life cycle and 10-year commercial warranty. Where possible, materials are reused in terms of energy and material.
- ✓ **Third-party certified for environmental impact**
Production, materials and products exceed statutory requirements. Parador Modular ONE is the first German flooring manufacturer to be EMAS certified, meeting the demands for environmental management.
- ✓ **Recycled and recyclable packaging**
Parador Modular ONE is packed and shipped in packaging produced from recycled paper and can be recycled after use.
- ✓ **Reduced carbon dioxide footprint**
Parador Modular ONE production undergoes improvements continually to minimize the impact on the environment. Parador has implemented shorter transportation routes and combined shipments to decrease the CO2 footprint.
- ✓ **Plant-for-the-Planet**
Parador Modular ONE is a partner of Plant-for-the-Planet foundation, which campaigns worldwide for reforestation and climate justice. To date, almost 200,000 trees have been planted by Parador alone.

Parador Modular ONE product and process certifications include:

Blue Angel, FloorScore®, EPD (Environmental Product Declaration), Klasse A+, TÜV Rheinland, PEFC™

Bolon Recycling Plant

Bolon Green®

Bolon operates its own onsite recycling plant, enabling them to create recycled material from waste and use the recycled content in their products. This investment is the latest in a long line of proactive steps designed to reduce the environmental impact of Bolon products and manufacturing processes.

✓ **Bolon is committed to producing eco-friendly products through:**

1. Exceeding legislative demands
2. Utilizing renewable energy in production processes
3. Purchasing practices
4. Eliminating the use of hazardous substances from materials
5. Product recycling
6. Recovering energy from non-recyclable products
7. Anticipating future legislation
8. Ensuring environmental control processes fulfill international standards with ISO 14001 certification

✓ **100% made in Sweden**

Along with the obvious environmental benefits in terms of transport and logistics, this allows Bolon to have full control over production processes.

✓ **No added phthalates**

On their own initiative, and after a long consultation process with industry experts, Bolon phased out the use of phthalates from all of their collections.

✓ **High-quality raw materials**

Bolon only sources and uses modern, safe, high-quality PVC – without exception.

✓ **Waste and spill monitoring**

Bolon consistently monitors waste and spill performance and is mindful of water and energy consumption.

✓ **Eco-friendly maintenance**

Bolon products can be cared for with eco-friendly, neutral cleaning agents and hold current product and process certifications.

✓ **Geothermal cooling**

Bolon only uses locally drawn groundwater for cooling purposes. The entire factory, warehouse, offices and every machine they contain are water-cooled.

✓ **Advanced filter system**

The backing process Bolon flooring goes through produces fumes. To manage this, they have installed a filter cleaning system that removes 98% of fumes.

Bolon product and process certifications include:

mindfulMATERIALS, Floorscore, BREEAM, Health Product Declaration (HPD), Environmental Product Declaration (EPD), Green Tag, M1, Basta, Portico and more.

BREEAM®

PURLINE Sustainability

PURLINE has remained steadfast in their focus on sustainability- not just in their products but in development, manufacturing and production processes. This isn't just a passing fad; this is an over 70 year commitment ingrained in the company DNA.

- ✓ **PURLINE is dedicated to producing eco-friendly products through:**
 1. Exceeding global legislative guidelines
 2. Employing renewable energy in production processes
 3. Purchasing practices
 4. Socially-compatible production of raw materials
 5. Production without the use of hazardous substances
 6. Utilizing rapidly renewable raw materials
 7. Product recycling
- ✓ **Climate-neutral manufacturing**

PURLINE is manufactured with the belief that responsible use of valuable energy resources is fundamental. That is why the production facilities fulfill necessary energy demands with renewable energies.
- ✓ **Eco-friendly maintenance**

PURLINE products can be cleaned with simple steam or neutral cleaning agents and hold all current product and process certifications.
- ✓ **Water stewardship**

No water is consumed and no waste water is produced during the PURLINE production process.
- ✓ **No plasticizers or phthalates**

Plasticizers and phthalates have never had a place in PURLINE flooring products. The product flexibility and durability are derived from natural ingredients.
- ✓ **Rapidly renewable raw materials**

PURLINE high-performance composite material is mainly produced from vegetable oils such as canola or castor oil and naturally occurring mineral components such as chalk.
- ✓ **Environmentally-friendly installation**

Approved PURLINE installation methods center on the use of adhesives that are Green Label Plus™ certified low in VOCs.

PURLINE product and process certifications include: mindfulMATERIALS, Cradle to Cradle Silver Certified™, FloorScore®, Blue Angel, GreenGuard™ Gold, EPD (Environmental Product Declaration), HPD (Health Product Declaration), Declare, M1, and more.

Parador Modular ONE Care

Regular Cleaning and Disinfecting

Initial Cleaning – Post Installation

- Dust mop, sweep or vacuum the floor to remove loose dust, dirt or grit.
- Damp mop the entire floor using a water-soluble, pH neutral, rinse-free, biodegradable cleaning solution (ex. Bona Hard Surface Floor Cleaner, Zep Neutral pH Floor Cleaner, etc.).
- Wring mop/cloth out well and avoid puddles of standing water, which can cause streaking on any floor surface.

Routine Care and Cleaning

- Dust mop, sweep or vacuum the floor to remove loose dust, dirt or grit.
- Immediately wipe up liquids resting on the floor, and only wipe with a damp cloth.
- Damp mop as needed to remove dirty streaks using a water-soluble, pH neutral, rinse-free, biodegradable cleaning solution (ex. Bona Hard Surface Floor Cleaner, Zep Neutral pH Floor Cleaner, etc.).
- Do not use acetone, strong alkaline cleaning agents, scouring powder, strong solvents, glycerine, abrasives/abrasive cleaning pads, or steam cleaners as these can potentially damage your flooring.
- Wring mop/cloth out well and avoid puddles of standing water, which can cause streaking on any floor surface.

Bolon Care+

Manual Cleaning and Stain Removal

Regular Cleaning

- Daily Cleaning can be done with a vacuum.
- For daily wet cleaning, use a scrub brush and warm water, and follow with a soft microfiber cloth for drying.
- Periodic cleaning can be carried out with a scrub brush, warm water and an all-purpose pH 7-8.5 cleaner, followed by a wet vacuum or by drying with a soft microfiber cloth.

Mechanical Cleaning

- Roller Brush Method: Use a scrubber-dryer with soft brush rollers, warm water and a strong alkaline, all-purpose cleaner with pH of 9-11. Start by wetting the floor by running the machine with the brushes and water/heavy duty cleaner solution. Do not use the suction function.
- Orbot Machine Method: Use an Orbot machine with soft “Super Zorb” pads and warm water. Use a minimal amount of an all-purpose cleaner with a pH of 7-8.5 on more heavily soiled areas. Run the machine slowly backwards and forwards with uniform overlapping while “spray-dampening” the floor. The dirt is absorbed in the pad.

Stain Removal

- Use a scrub brush and rinse with water.
- When using a stain remover, please check that it is safe for use on vinyl flooring.

Disinfecting

- Do not use acetone.
- Use Alcohol (ASTM F925) or Bleach diluted with water at a 1:10 ratio (1 part Bleach, to 10 parts water)
- Always be sure to rinse after disinfectant use with clean water.

Please consult your Bolon Representative with additional questions.

PURLINE Care

Regular Cleaning and Disinfecting

Regular Cleaning

With Mop

- Start by dust mopping or vacuum cleaning the floor.
- Damp mop using a flat microfiber mop and a suitable pH neutral cleaning solution.

With Steam

- Start by dust mopping or vacuum cleaning the floor.
- Steam clean the floor using a suitable steam cleaner, microfiber pads and distilled water.
- Do not allow the steam to stay stationary on the flooring for more than 5 seconds.

With Scrubber

- Start by dust mopping or vacuum cleaning the floor.
- Use a suitable auto-scrubbing machine or floor scrubber (~ 175 RPM) with a red pad and a suitable pH neutral cleaning solution. Scrub and wet vacuum up the solution.
- Rinse with clean water and remove using a wet vacuum.

Deep Cleaning

- Start by dust mopping or vacuum cleaning the floor.
- Wet mop the entire floor using a suitable water soluble cleaning solution.
- For large areas: Scrub the floor using a suitable auto-scrubbing machine or floor scrubber (~ 175 RPM) with a red pad, and wet vacuum up the solution. Rinse with clean water, and remove using a wet vacuum.
- For small areas: Scrub with a nylon broom, and remove the soiled solution using a wet vacuum. Rinse with clean water, and remove using a wet vacuum.

Stain Resistance

- From bleach to hand sanitizer to Sharpie, PURLINE flooring will not stain even by some of the most common staining agents.
